

Hydra Lake Clear

Removes Blanket Weed & String Algae from Koi/Fish Ponds, Lakes, Water Traps, Natural Pools & Irrigation Systems

Features & Benefits

- Hydra Lake Clear is a complex blend of natural minerals and sequestrants. 100% biodegradable and free from additives which can cause toxic effects or oxygen deprivation
- It works the same safe way as barley straw but instantly. No waiting weeks to see results and no messy smelly straw to remove.
- Rapidly removes blanket Weed/String Algae without altering the pH of water.
- Harmless to All fish, birds, reptiles, invertebrates, humans, animals, mammals, and water plants.
- Promotes clear healthy water by chelating and absorbing nitrites, phosphates and other pollutants. These nutrients are used as a food source for blanket weed.
- Safe on all surfaces including concrete and synthetic liners. Will not effect pumps or filters.

Initial Treatment

Broadcast **Hydra Lake Clear** to affected areas at the high curative rate, either manually or by applicator. Once the blanket weed has died, turned grey or floats free, it can either be manually removed or it left to sink to the bottom were it will decompose.

2nd Treatment

Re-treat any stubborn areas that require treating after one week.

Maintenance Treatment

Then maintenance treat as required at the low curative rate.

Irrigation of Greens

If using water for irrigation of greens - wait for 5 days after treatment before using on greens.

Maintenance Treatment Dosage

After blanket weed has been eliminated use **Hydra Lake Clear** at maintenance dose rate monthly.

Dilution rates:

Ponds: Initial Treatment 1 kilo treats up to 10,000 litres water.

Maintenance Dosage: 1 kilo treats up to 50,000 litres water

Lakes/Irrigation Systems: Initial Treatment: 25 to 50 kilos treats 1 Acre.

Maintenance Dosage: 5 to 15 kilos treats 1 acre
